

Make an appointment today,
and get on with life!

- Our painless, minimally invasive hemorrhoid procedure is 99.9% effective and performed in our offices in as little as 30 seconds.
- Board-certified surgeons perform all aspects of consultation, diagnosis and treatment, ensuring the highest standards of care.
- Following treatment, we can screen you for colorectal cancer, which can also be a cause of bleeding. It is recommended that those 50 years old and up be screened annually.
- We accept most major insurance plans, including Medicare/Medicaid. Please call the center nearest you for assistance with your policy.

PROCEDURE	AVERAGE PROCEDURE TIME	AVERAGE TIME OFF WORK	PAIN MEDICATION REQUIRED PRE/POST

Are you suffering in silence because of pain "back there"?

Get lasting relief from the recurring pain, itching and bleeding of hemorrhoids. At The Center for Colorectal Health, we specialize in the minimally invasive treatment of this extremely common and often neglected condition, which affects about half of the population by age 50. We also treat anal fissures and conduct colorectal cancer screenings as a natural extension of our hemorrhoid care.

"I went home and had a pretty normal day without any pain medication. I definitely feel more comfortable."

End your symptoms in as little as 30 seconds.

Our patented hemorrhoid banding system is a simple, painless and highly-effective procedure (99.9%) that is performed in our offices in as little as 30 seconds. How simple? A board-certified surgeon places a tiny rubber band around the hemorrhoid to cut off its blood supply. The hemorrhoid then shrinks and falls off within a day or so, usually without your noticing. Once the hemorrhoid is gone, so are your symptoms.

Save your sick days... for something else.

The CRH-O'Regan Disposable Hemorrhoid Banding System is the only hemorrhoid removal treatment that requires no pain medication and virtually no recovery time. In fact, many of our patients with office jobs return to work immediately following the appointment. Others rest at home the remainder of the day and resume normal activities the following day.

Minimal discomfort. Maximal safety.

We are the only healthcare provider in the U.S. offering the CRH-O'Regan Disposable Hemorrhoid Banding System. Unlike other techniques that use a metal clamp to grasp the hemorrhoid during banding, we use a smaller and gentler suction device to minimize discomfort and complications. Additionally, while other centers rely on re-usable instrumentation, our patented instruments are 100% disposable and single-use. This eliminates the risk of transferring infectious diseases such as HIV and hepatitis B and C from patient to patient due to inadequately sterilized instrumentation.

"The procedure was not only painless but it put an instant end to my discomfort. I'm just sorry I didn't do it sooner."

© THERE ARE MANY CAUSES OF HEMORRHOIDS, INCLUDING CONSTIPATION, PREGNANCY AND HEAVY LIFTING.

© YOU NOW HAVE AN ALTERNATIVE TO ENDLESS SELF-CARE... OR COSTLY AND INVASIVE SURGERY.

"After suffering 50 years of foolish discomfort and only three visits, I feel like a new woman. Thank you for making such an amazing difference in my everyday life."

© THE "GOLD STANDARD" FOR BANDING, OUR PROCEDURE HAS THE LOWEST RATE OF COMPLICATIONS EVER PUBLISHED.
